Prepared by Dr Mehdi Khosravi

Appendix No 3:

1. Pars Soil and Water (Study, design, and execution of various water and soil projects related to agricultural and road construction infrastructure for development and prosperity)

2. Construction Industry (Construction in the sectors of building, mechanical installations, electrical installations, machinery, and equipment)

3. Communications Infrastructure (Provision of telecommunication infrastructure and internet bandwidth)

4. Soroush Publications (Authoring, translating, printing, and publishing valuable books in the field of media, television, radio, and other related sectors)

5. Iran Gas Transmission (Management, maintenance, repair, and operation of 70% of the physical assets of the gas industry in Iran)

6. Ardabil Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Ardabil province)

7. Isfahan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Isfahan province)

8. Alborz Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Alborz province)

9. East Azerbaijan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in East Azerbaijan)

10. Bushehr Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Bushehr province)

11. Tehran Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Tehran province)

12. Fars Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Fars province)

13. Qazvin Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Qazvin province)

14. Kurdistan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Kurdistan province)

15. Kerman Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Kerman province)

16. Kermanshah Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Kermanshah province)

17. Kohgiluyeh and Boyer-Ahmad Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Yasuj)

18. Golestan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Golestan province)

19. Gilan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Gilan province)

20. Mazandaran Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Mazandaran province)

21. Yazd Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Yazd province)

22. Ilam Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Ilam province)

23. West Azerbaijan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in West Azerbaijan)

24. Chaharmahal and Bakhtiari Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Shahr-e Kord)

25. South Khorasan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in South Khorasan)

26. Razavi Khorasan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Razavi Khorasan)

27. North Khorasan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in North Khorasan)

28. Zanjan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Zanjan)

29. Semnan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Semnan)

30. Sistan and Baluchestan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Zahedan)

31. Qom Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Qom province)

32. Lorestan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Lorestan province)

33. Markazi Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Markazi province)

34. Hormozgan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Hormozgan province)

35. Hamedan Regional Water (Management of water supply and demand for drinking, health, industry, and agriculture in Hamedan)

36. Ardabil Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Ardabil province)

37. Isfahan Rural Water and Sew

age (Distribution and disposal of sanitary water and sewage in rural areas of Isfahan province)

38. Alborz Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Alborz province)

39. Ilam Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Ilam province)

40. Bushehr Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Bushehr province)

41. Tehran Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Tehran province)

42. Chaharmahal and Bakhtiari Rural Water and Sewage (Collection, transfer, and sanitary disposal of sewage in rural areas of Chaharmahal and Bakhtiari province)

43. South Khorasan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of South Khorasan province)

44. Razavi Khorasan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Razavi Khorasan province)

45. North Khorasan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of North Khorasan province)

46. Khuzestan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Khuzestan province)

47. Zanjan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Zanjan province)

48. Semnan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Semnan province)

49. Sistan and Baluchestan Rural Water and Sewage (Collection, transfer, and sanitary disposal of sewage in rural areas of Sistan and Baluchestan province)

50. Fars Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Fars province)

51. Qazvin Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Qazvin province)

52. Qom Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Qom province)

53. Kerman Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Kerman province)

54. Kermanshah Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Kermanshah province)

55. Kohgiluyeh and Boyer-Ahmad Rural Water and Sewage (Collection, transfer, and sanitary disposal of sewage in rural areas of Kohgiluyeh and Boyer-Ahmad province)

56. Golestan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Golestan province)

57. Gilan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Gilan province)

58. Lorestan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Lorestan province)

59. Mazandaran Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Mazandaran province)

60. Markazi Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Markazi province)

61. Hormozgan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Hormozgan province)

62. Hamedan Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Hamedan province)

63. Yazd Rural Water and Sewage (Distribution and disposal of sanitary water and sewage in rural areas of Yazd province)

64. Soil Mechanics Laboratory (Laboratory services, road and airport consulting, geotechnical studies, geographic information systems)

65. Iran Alumina (Operation of bauxite mines and by-products, exploration and extraction of raw materials from mines both domestically and internationally)

66. Iran Urban Regeneration (Revitalization, improvement, and renovation of old, worn-out, and inefficient urban textures and informal settlements)

67. Iran Gas Commerce (Oil, gas, and petrochemical industry - Equipment and refineries for oil, gas, and petrochemicals)

68. Export Development Bank of Iran (Provision of retail and corporate banking services, investment management and brokerage, commercial financing services)

69. Industrial and Mining Development Bank (Utilization of operational capabilities in development banking, investment for economic development of the country)

70. Agricultural Bank (Provision of specialized services to the agricultural sector, commercial services, foreign currency and international services)

71. Housing Bank (Modern banking services, various financing for purchase, construction, and repair of housing, Housing Bank savings account privileges)

72. National Bank of Iran (Participation in social responsibility activities in organizational and personnel areas)

73. Hormozgan Regional Electricity (Management of production and supply

of reliable and stable electric energy in the geographical area covered by Hormozgan)

74. Isfahan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Isfahan)

75. Western Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by the West)

76. Tehran Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Tehran)

77. Khorasan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Khorasan)

78. Khuzestan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Khuzestan)

79. Zanjan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Zanjan)

80. Semnan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Semnan)

81. Sistan and Baluchestan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Sistan and Baluchestan)

82. Western Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by the West)

83. Fars Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Fars)

84. Kerman Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Kerman)

85. Gilan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Gilan)

86. Mazandaran Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Mazandaran)

87. Yazd Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Yazd)

88. Azerbaijan Regional Electricity (Management of production and supply of reliable and stable electric energy in the geographical area covered by Azerbaijan)

89. Aghajari Oil and Gas Operation (Operation of production, processing, and transportation of oil and gas from 8 oil and gas fields located in the southeast of Khuzestan)

90. South Zagros Oil and Gas Operation (Operation of five operational areas including Parsian, Dalan, Kangan, Sarkhoon, and Southern Gashui)

91. East Oil and Gas Operation (Production, primary separation, and transportation of gas and gas condensates to supply the feedstock of Shahid Hasheminejad gas refinery in Khorasan)

92. West Oil and Gas Operation (Production and processing of oil, gas, and gas liquids in the areas of Naft Shahr, Tang Bijar, Cheshmeh Khosh, Sarkhan, and Dehloran)

93. Karoun Oil and Gas Operation (Operation and conservative production of oil, gas, and gas liquids from the fields of Ramin, Aghajari, Mansouri, and Ahvaz)

94. Gachsaran Oil and Gas Operation (Operation of oil and gas production from scattered fields such as Gachsaran, Bibi Hakimeh, Rag Sefid, and more)

95. Marun Oil and Gas Operation (Operation and exploitation of crude oil and gas from oil fields west of the Marun River, including the Marun, Kupal fields)

96. Masjed Soleyman Oil and Gas Operation (Operation of production and exploitation from oil and gas fields in the southern oil-rich areas located in the north of Khuzestan)

97. Fuel Consumption Optimization (Optimization of fuel consumption in transportation systems and vehicles, buildings and housing, and industries)

98. Iran Insurance (Activity in all life and non-life insurance branches and offering commercial and family insurances)

99. Central Insurance of the Islamic Republic of Iran (Approval of laws and regulations and supervision over the activities of insurance institutions, performing compulsory and optional reinsurance)

100. Ilam Gas Refinery (Supply of natural gas for consumption in Ilam, pressure boosting of the national pipeline in the west of the country, and supplying feedstock for Ilam petrochemical)

101. Bid Boland Gas Refinery (Collection and processing of associated gas of the country and supplying energy and gas of the country)

102. Parsian Gas Refinery (Shiraz) (Investment, design, and construction of production units for gas condensates and hydrocarbons)

103. Sarakhs and Qeshm Gas Refinery (Extraction and refining of natural gas and gas condensates associated and liquefied gas related to the Sarakhs gas field)

104. Shahid Hashemi Nejad Gas Refinery - Khangiran (Completion and execution of electrical, instrumentation, and mechanical sections of the Khangiran acid gas concentration project)

105. Fajr Jam Gas Refinery (Purification of gas from gas fields, production of dry gas and stabilized gas liquids, production of LPG, and export to neighboring countries)

106. Imam Khomeini (Rah) Shazand Oil Refinery (Operation of refining and processing crude oil and other hydrocarbons, construction of petroleum products)

107. Abadan Oil Refinery (Import of equipment for the oil and gas and petrochemical industries of Abadan)

108. Iranian Oil Terminals (Export and import of crude oil, petroleum products, and gas condensates and maritime services, supporting the continuous production of oil and gas of the country)

109. Petrochemical Research and Technology (Research on catalysts and chemical substances in the petrochemical industry and providing technology for the production of these materials to customers and stakeholders)

110. Support for Livestock Affairs of the Country (Guaranteed purchase and market regulation of fodder, support for the production of protein products, support for consumers)

111. Support for Construction and Provision of Oil Goods Tehran (Localization of manufacturing of key equipment for the National Oil Company)

112. Iran Drilling Services (Repair, replacement, restoration, remaining finding, reconstruction, well completion, and equipping wellhead and downhole devices and facilities for oil and gas)

113. Industrial and Mining Endeavors of Lamerd and Parsian (Production of value-added products, completion of the petrochemical production chain, increase in non-oil exports)

114. Production and Supply of Iranian Mineral Materials (Exploration, development, equipment, extraction, and processing of mineral reserves)

115. Development of Energy Industries in South Parsian (Import of raw materials and export of produced goods in special southern regions)

116. Development of Oil Refining Industries (Production of petroleum products such as gasoline, diesel, petrochemical products)

117. Development of Oil and Gas Industries of Iranian Expansion (Production and exploration and development of oil and gas fields, design, construction, maintenance, and repairs)

118. Development of Water and Power Resources of Iran (Studies, financial resources procurement (both domestic and international), executive management of projects, quality supervision)

119. Development and Maintenance of Railway Wagons of Rahnavard (Management of development projects of the railway fleet)

120. Development and Maintenance of Sports Facilities of the Country (Construction, equipment, and maintenance of sports facilities and buildings)

121. Isfahan Power Generation (Production and sale of electric energy within the regulations of the electricity market in Isfahan)

122. Azerbaijan Power Generation (Production and sale of electric energy within the regulations of the electricity market in Azerbaijan)

123. Bandar Abbas Power Generation (Production and sale of electric energy within the regulations of the electricity market in Bandar Abbas)

124. Tehran Power Generation (Production and sale of electric energy within the regulations of the electricity market in Tehran)

125. Khorasan Power Generation (Production and sale of electric energy within the regulations of the electricity market in Khorasan)

126. Ramin Power Generation (Production and sale of electric energy within the regulations of the electricity market in Ahvaz)

127. Zahedan Power Generation (Production and sale of electric energy within the regulations of the electricity market in Zahedan)

128. Sahand Power Generation (Production and sale of electric energy within the regulations of the electricity market in Tabriz)

129. Shahid Rajai Power Generation (Production and sale of electric energy within the regulations of the electricity market in Qazvin)

130. Shahid Salimi Power Generation (Production and sale of electric energy within the regulations of the electricity market in Neka)

131. Shahid Mofatteh Power Generation (Production and sale of electric energy within the regulations of the electricity market in Hamedan)

132. Shirvan Power Generation (Production and sale of electric energy within the regulations of the electricity market in Shirvan)

133. Fars Power Generation (Production and sale of electric energy within the regulations of the electricity market in Fars)

134. Kerman Power Generation (Production and sale of electric energy within the regulations of the electricity market in Kerman)

135. Loshan Power Generation (Production and sale of electric energy within the regulations of the electricity market in Loshan)

136. West Country Power Generation (Production, operation, and maintenance of power plants, transmission and distribution of electricity, energy management in the western region)

137. Iran State Printing (Import and distribution of cartridges and related supplies)

138. Oil Transport and Support Services (Supply of fuel, chemicals, and pipes for drilling rigs and transportation of rigs)

139. Agricultural Support Services (Planning and action for the production, procurement, supply, distribution, transportation, and sale of equipment needed by farmers)

140. Industrial and Commercial Services (ICS) (Production, sale, export, and import of commercial goods, customs clearance of goods)

141. Public Health Industrial Services and Oil Industry Medical Services (Provision, maintenance, and promotion of health for oil industry employees and their families)

142. South Industrial Equipment Engineering Services (Manufacturing, support, repairs, and maintenance of

modern industrial equipment)

143. Aerial Services of Post and Telecommunication (Provision of aerial services and transportation and distribution of cargo, products, and postal parcels)

144. Oil Pipelines and Telecommunications of Iran (Transportation of petroleum products across the country, supply of crude oil feedstock for the country's refineries)

145. Central Alborz Coal (Exploration, exploitation of mines, and processing of coal in the Central Alborz area)

146. Islamic Republic of Iran Railways (Transport of passengers and goods using trains and railway wagons across the country)

147. Official Gazette of the Country (Execution of all printing and publishing orders and circulars of the judiciary and affiliated organizations)

148. Tabriz Machine Casting (Production of various industrial machines such as machine tools, lathes, etc.)

149. Khuzestan Water and Electricity Organization (Protection and maintenance of all water resources and hydroelectric structures, construction of dams)

150. Iran Health Insurance Organization (Actions necessary for the centralization of all matters, duties, and activities related to health insurance in the organization)

151. Development and Modernization of Mining and Mineral Industries of Iran (IMIDRO) (Supervision over the use of mineral reserves and proper and effective exploitation)

152. Organization for Collection and Sale of State-owned Properties (Collection, storage, management, and sale of state-owned properties, organization of warehouses)

153. Audit Organization (Provision of specialized financial services to governmental and government-supervised sectors)

154. Islamic Republic News Agency (IRNA) (Collection of news from Iran and the world, writing news reports and specialized interviews)

155. Privatization Organization (Transfer of government and state-owned company shares to the private sector)

156. Road Maintenance and Transportation Organization (Preparation and implementation of guidelines for domestic and international transport and cargo transit)

157. Iran Handicrafts Organization (Promotion of handicrafts- Research and study on handicrafts- Creation and development of cooperative workshops)

158. Iran Information Technology Organization (Development of the national information network, electronic services, security of information production and exchange space)

159. Industrial Development and Renovation Organization of Iran (IDRO) (Investment and management in the fields of energy, chemical, shipbuilding, railway, and more)

160. Industrial Management Organization (Assisting economic entities in the country in adopting suitable strategies for design and...)

161. Central Organization of Rural Cooperatives of Iran (Construction and equipment of warehouses and direct supply centers, implementation of water and soil projects)

162. National Land and Housing Organization (Provision, administration, and exploitation of land, supervision and control over the land and housing market)

163. Anzali Free Trade-Industrial Zone Organization (Equipment and strengthening of Anzali port facilities and capabilities)

164. Chabahar Free Trade-Industrial Zone Organization (Equipment and strengthening of Chabahar port facilities and capabilities)

165. Kish Free Trade-Industrial Zone Organization (Equipment and strengthening of Kish port facilities and capabilities)

166. Pars Special Economic Energy Zone Organization (Definition, approval, creation, and construction of public infrastructure in the operational area of South Pars, Kangan, and North)

167. Petrochemical Special Economic Zone Organization (Support for economic activities and establishment of international commercial connections)

168. Shareholding Central Electronic and Equipment Manufacturing Company (Production of radio and television transmitters and telecommunications equipment)

169. Shareholding Building and Installation Company of Saratel Iran (Execution of repair and maintenance projects for buildings inside and outside the IRIB organization)

170. Imam Khomeini International Airport City (Provision of airline services, management of incoming and outgoing flights)

171. Ardabil Industrial Parks (Production and sale of products and economic development of Ardabil province)

172. Alborz Industrial Parks (Production and sale of products and economic development of Alborz province)

173. Qazvin Industrial Parks (Production and sale of products and economic development of Qazvin province)

174. Qom Industrial Parks (Production and sale of products and economic development of Qom province)

175. Markazi Industrial Parks - Arak (Production and sale of products and economic development of Markazi province)

176. Yazd Industrial Parks (Production and sale of products and economic development of Yazd province)

177. Isfahan Industrial Parks (Production and sale of products and economic development of Isfahan province)

178. Ilam Industrial Parks (Production and sale of products and economic development of Ilam province)

179. East Azerbaijan Industrial Parks (Production and sale of products and economic development of East Azerbaijan province)

180. West Azerbaijan Industrial Parks (Production and sale of products and economic development of West Azerbaijan province)

181. Bushehr Industrial Parks (Production and sale of products and economic development of Bushehr province)

182. Tehran Industrial Parks (Production and sale of products and economic development of Tehran province)

183. Chaharmahal and Bakhtiari Industrial Parks (Production and sale of products and economic development of Chaharmahal and Bakhtiari province)

184. South Khorasan Industrial Parks (Production and sale of products and economic development of South Khorasan province)

185. Razavi Khorasan Industrial Parks (Production and sale of products and economic development of Razavi Khorasan province)

186. North Khorasan Industrial Parks (Production and sale of products and economic development of North Khorasan province)

187. Khuzestan Industrial Parks (Production and sale of products and economic development of Khuzestan province)

188. Zanjan Industrial Parks (Production and sale of products and economic development of Zanjan province)

189. Semnan Industrial Parks (Production and sale of products and economic development of Semnan province)

190. Sistan and Baluchestan Industrial Parks (Production and sale of products and economic development of Sistan and Baluchestan province)

191. Fars Industrial Parks (Production and sale of products and economic development of Fars province)

192. Kurdistan Industrial Parks (Production and sale of products and economic development of Kurdistan province)

193. Kerman Industrial Parks (Production and sale of products and economic development of Kerman province)

194. Kermanshah Industrial Parks (Production and sale of products and economic development of Kermanshah province)

195. Kohgiluyeh and Boyer-Ahmad Industrial Parks (Production and sale of products and economic development of Kohgiluyeh and Boyer-Ahmad province)

196. Golestan Industrial Parks (Production and sale of products and economic development of Golestan province)

197. Gilan Industrial Parks (Production and sale of products and economic development of Gilan province)

198. Lorestan Industrial Parks (Production and sale of products and economic development of Lorestan province)

199. Mazandaran Industrial Parks (Production and sale of products and economic development of Mazandaran province)

200. Hormozgan Industrial Parks (Production and sale of products and economic development of Hormozgan province)

201. Hamedan Industrial Parks (Production and sale of products and economic development of Hamedan province)

202. Agricultural Towns (Organization, guidance, support, and supervision over the establishment and development of intensive and greenhouse cultivation of agricultural products)

203. Thermal Power Plant Production Company (Organization of government activities in the field of thermal power generation)

204. Mining Investment Insurance Fund (Coverage of investment risks in the exploration, extraction, and processing of minerals)

205. Agricultural Insurance Fund (Insurance of various agricultural products against damages caused by natural disasters and force majeure incidents)

206. Marine Industries Development Fund (Conducting developmental studies, granting facilities for the construction and development of marine industries equipment and services)

207. Cooperative Investment Guarantee Fund (Assistance in the development of the cooperative sector through guarantees and necessary actions)

208. Small Industries Investment Guarantee Fund (Aid in the development of small industries through guaranteeing up to seventy percent)

209. Iran Export Guarantee Fund (Assistance to exporters of goods in increasing production and non-oil product exports)

210. New City of Amir Kabir Development (Preparation and execution of various urban planning projects and development activities in Amir Kabir city)

211. New City of Andisheh Development (Preparation and execution of various urban planning projects and development activities in Andisheh city)

212. New City of Baharestan Development (Preparation and execution of various urban planning projects and development activities in Baharestan city)

213. New City of Binalood Development (Preparation and execution of various urban planning projects and development activities in Binalood city)

214. New City of Pardis Development (Preparation and execution of various urban planning projects and development activities in Pardis city)

215. New City of Parand Development (Preparation and execution of various urban planning projects and development activities in Parand city)

216. New City of Tis Development (Preparation and execution of various urban planning projects and development activities in Tis city)

217. New City of Rameshar Development (Preparation and execution of various urban planning projects and development activities in Rameshar city)

218. New City of Ramin Development (Preparation and execution of various urban planning projects and development activities in Ramin city)

219. New City of Sahand Development (Preparation and execution of various urban planning projects and development activities in Sahand city)

220. New City of Shirin Shahr Development (Preparation and execution of various urban planning projects and development activities in Shirin Shahr city)

221. New City of Sadra Development (Preparation and execution of various urban planning projects and development activities in Sadra city)

222. New City of Aalishahr Development (Preparation and execution of various urban planning projects and development activities in Aalishahr city)

223. New City of Alavi Development (Preparation and execution of various urban planning projects and development activities in Alavi city)

224. New City of Fooladshahr Development (Preparation and execution of various urban planning projects and development activities in Fooladshahr city)

225. New City of Golbahar Development (Preparation and execution of various urban planning projects and development activities in Golbahar city)

226. New City of Majlesi Development (Preparation and execution of various urban planning projects and development activities in Majlesi city)

227. New City of Hashtgerd Development (Preparation and execution of various urban planning projects and development activities in Hashtgerd city)

228. New City of Ivanki Development (Preparation and execution of various urban planning projects and development activities in Ivanki city)

229. Cultural and Sports Club Esteghlal Iran (Provision of sports facilities and social and cultural activities in the field of football and futsal, etc.)

230. Cultural and Sports Club Pirouzi (Persepolis) (Promotion of cultural and sports activities and enhancement of culture and sports level in society)

231. Iran Airports and Air Navigation Company (Management and operation of airports and provision of all airport navigation services for passenger and training flights)

232. Azerbaijan Steel (Import and export of authorized goods and production of auto parts in East Azerbaijan province)

233. Institute for the Intellectual Development of Children and Young Adults (Foundation of book supply centers and cultural and artistic education specifically for children and young adults)

234. Sefidrud Agriculture and Animal Husbandry (Production of agricultural products, one-day-old chicks, broiler chickens, fish, poultry feed, and dairy products)

235. Moghan Agriculture, Industry, and Animal Husbandry (Development of equipment, machinery, and tools for agriculture, development, and revitalization of orchards, modern irrigation development)

236. Ardabil Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Ardabil province)

237. Isfahan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Isfahan province)

238. Alborz Gas Company (Supply

and distribution of gas and after-sales services in a safe and standard manner in Alborz province)

239. Ilam Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Ilam province)

240. East Azerbaijan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in East Azerbaijan province)

241. West Azerbaijan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in West Azerbaijan province)

242. Bushehr Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Bushehr province)

243. Tehran Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Tehran province)

244. Chaharmahal and Bakhtiari Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Chaharmahal and Bakhtiari province)

245. South Khorasan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in South Khorasan province)

246. Razavi Khorasan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Razavi Khorasan province)

247. North Khorasan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in North Khorasan province)

248. Khuzestan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Khuzestan province)

249. Zanjan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Zanjan province)

250. Semnan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Semnan province)

251. Sistan and Baluchestan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Sistan and Baluchestan province)

252. Fars Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Fars province)

253. Qazvin Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Qazvin province)

254. Qom Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Qom province)

255. Kurdistan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Kurdistan province)

256. Kerman Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Kerman province)

257. Kermanshah Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Kermanshah province)

258. Kohgiluyeh and Boyer-Ahmad Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Kohgiluyeh and Boyer-Ahmad province)

259. Golestan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Golestan province)

260. Gilan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Gilan province)

261. Lorestan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Lorestan province)

262. Mazandaran Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Mazandaran province)

263. Central Province Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Central province)

264. Hormozgan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Hormozgan province)

265. Hamedan Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Hamedan province)

266. Yazd Gas Company (Supply and distribution of gas and after-sales services in a safe and standard manner in Yazd province)

267. Tabriz Machine Manufacturing Group (Manufacturing, production, sales of manufactured machinery, design and equipment of production lines, and after-sales services)

268. Marand Glass Fiber Expansion (Supply of glass fiber in the country and self-sufficiency in its production)

269. Green Fuel Development (Research and study of biofuels, especially bioethanol)

270. Aria Tire Hamoon Industries Expansion (Innovation in transportation technology, production and supply of various types of vehicle tires, focusing on customer service)

271. Baluch Industries Expansion (Activities in spinning, dyeing, and printing, production, storage, and preservation of food products in cold storage)

272. Iran Entrepreneurship Expansion (Service to investors and esteemed entrepreneurs of the country)

273. Green Paper Kharamah Expansion (Paper production from stone named "calcium carbonate paper", production and printing of

shopping bags, production of gift wrap)

274. Zarshuran Gold Mines and Mineral Industries Expansion (Exploratory operations on gold, gold mine reserves, current production, and ore grade of Zarshuran)

275. Esfarayen Pipe Expansion (Production of seamless steel pipes including casing, core, and flow pipes required in the oil, gas, and petrochemical industries)

276. Specialized Mother Company for Development and Equipment of Health Care Centers and Medical Equipment of the Country (Management, coordination, optimization, quality improvement, ...)

277. Specialized Mother Company for Agricultural Services (Fishing, processing, sale, and export of caviar, dredging, and drainage)

278. Specialized Mother Company for Development of Transportation Infrastructure of the Country (Centralized management in the field of transport infrastructure)

279. Specialized Mother Company for Consumer and Producer Protection Organization (Support for domestic productions and consumers, inspection, and supervision)

280. Specialized Mother Company for Small Industries and Industrial Parks Organization of Iran (Development and completion of all infrastructures and improving the business environment of small industries)

281. Specialized Mother Company for Executive Organization of Governmental and Public Buildings and Facilities (Preparation and implementation of government building and facility projects)

282. Specialized Mother Company for Supporting Research and Development of Advanced Industries (Support for private sector enterprises and cooperatives in advanced industries)

283. Specialized Mother Company for Supporting the Development of Investment in the Agricultural Sector (Appropriate investment in the agricultural sector)

284. Specialized Mother Company for Development of New Cities (Organization, management, and creation of new cities or towns in the country)

285. Specialized Mother Company for Management, Production, Transmission, and Distribution of Electricity in Iran - Tavanir (Any activity towards reliable and economical electricity supply)

286. Specialized Mother Company for Management of Construction and Procurement of Water and Electricity Goods (SATKAB) (Organization and productivity increase, participation, and investment)

287. Specialized Mother Company for Engineering of Water and Wastewater of Iran (Organization of the Ministry of Energy's statutory activities in water and wastewater)

288. Sima Wood Industrial Complex (Design and equipment of TV decors and studios, office furniture, ...)

289. Esfarayen Industrial Complex (Production and supply of various alloy sections and parts for domestic and foreign industries)

290. Iran Shipbuilding and Offshore Industries Complex (Design, construction, and repair of various ships and marine and offshore structures)

291. South Pars Gas Complex (Operation of onshore facilities of multiple phases of the South Pars gas field)

292. Iran Power Network Management (Development, equipment, management, coordination, and supervision of the national electricity network control and monitoring center)

293. Iran Industrial Projects Management (Implementation of exploration and production, refinery, petrochemical, environmental, mining industries, and power plant projects)

294. Information Technology Development Center (Software development and e-government services, messaging services, development of new smart technologies)

295. Shahrbabak Copper Complex (Miduk) (Drilling, blasting, extraction, loading, and transportation of ore in the Miduk copper complex)

296. National Iranian Oil Products Distribution Company (Oil crude refining and production of various oil products, transportation of crude oil and oil products to centers)

297. Islamic Republic of Iran Post Company (Establishing communication and exchanging letters and messages)

298. National Iranian Drilling Company (Drilling operations and technical and engineering services of oil and gas wells in Iran)

299. National Iranian Steel Company (Management and guidance of steel plants and execution of mining and steel projects)

300. National Iranian South Oil Fields Company (Exploration, development, production, processing, and transportation of crude oil and natural gas, production of gas condensate)

301. National Iranian Oil Engineering and Construction Company (Construction of refineries, storage tanks, construction of crude oil and product pipelines, ...)

302. Jahrom Special Economic Zone (Assistance in the development of economic, social, cultural capacities, and improving the living standards of the people in Jahrom area)

303. Garmsar Special Economic Zone (Assistance in the development of economic, social, cultural capacities, and improving the living standards of the people in Garmsar area)

304. Persian Gulf Special Zone for Mining and Metal Industries (Infrastructure development, provision of stable services, facilitation of export and import operations)

305. Caspian Oil (Supervision over environmental issues related to exploration and development of oil and gas reserves in the Caspian Sea)

306. Iranian Offshore Oil Company (Extraction and exploitation of oil fields and gas fields of the country, primarily focused on the Persian Gulf area)

307. Central Iran Oil Fields Company (Production, processing, and transportation of crude oil, natural gas, as well as production of gas condensate)

308. Arvandan Oil and Gas Company (Oil extraction operations in the south and west of Iran)

309. Pars Oil and Gas Company (Production and management of the development of oil and gas fields, focusing on shared fields)

310. International Exhib

itions of the Islamic Republic of Iran (Meeting the needs of participants and visitors in introducing achievements)

311. Iran Air, the Airline of the Islamic Republic of Iran (Passenger transportation operations on domestic and international routes)

312. Special Air Services Company (Providing aerial and airport services, aerial weed control, patrol, aerial photography, and aerial firefighting)

313. Financial statements of Post Bank are published on the CODAL system due to being listed on the stock exchange.
